## Objective

Motivated third-year Computer Science student proficient in C, C++, Java, Java Spring Boot, Kotlin, and Android development. Seeking an internship position to apply my skills in software development and data structures, and contribute to innovative projects within a dynamic tech environment.

## Education

### Bachelor of Technology in Computer Science Engineering

Kalinga Institute of Industrial Technology, Bhubaneswar

Expected Graduation: 2026

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Software Engineering

### Senior Secondary (Class 12) Jehanabad College Jehanabad, Jehanabad

Year of Completion: 2022

### Secondary (Class 10) Bal Vidya Niketan, Jehanabad

Year of Completion: 2020

## Skills & Abilities

- **Programming Languages:** C, C++, Java, Kotlin
- **Frameworks:** Java Spring Boot(learning)
- **Development:** Android Development, Data Structures and Algorithms

## Projects

### 1. Sorting Algorithm Visualizer

- **Description:** A web-based application that provides an interactive and visual representation of various sorting algorithms.
- **Technologies:** HTML, CSS, JavaScript
- **GitHub:** [Sorting Algorithm Visualizer](#)

### 2. MindChess

- **Description:** An Android application for playing chess with a user-friendly interface and standard chess rules.
- **Technologies:** Java, Android SDK
- **GitHub:** [MindChess](#)

### 3. MomMind

- **Description:** A Kotlin-based Android application with a focus on improving mental health and well-being through various interactive features.
- **Technologies:** Kotlin, Android SDK
- **GitHub:** [MomMind](#)
